You were born to fly  
So go and spread your wings  
You can take to the sky  
To do amazing things

We can all make a shift  
We can make a change  
We can, we can, we can, we CAN  
Accomplish anything

Like butterflies, tell ya  
We can go through a transformation  
Like wheels moving onward,  
Pushing forward with momentum  
We can live with more intention

Life becomes so much clearer  
When you're able to see  
There's nothing holding you back  
From reaching all your dreams

Grow with BUTTERFLYWHEEL

Show the world what you can do  
You can do so much when you believe in you

Grow with BUTTERFLYWHEEL

Living life beyond limits  
We've got it in us  
And we're not gonna to quit

We're ever changing  
Moving forward, keeping it real

With BUTTERFLYWHEEL

Show the world what you can do  
You can do so much when you believe in you

Grow with BUTTERFLYWHEEL

Living life beyond limits  
We've got it in us  
And we're not going to quit

Grow with BUTTERFLYWHEEL
